

Extended Working Temperature Type PoE PD Module – PDI Modules Application Note

A. Scope

This document can be applied on Befact PoE / PoE+ PD modules. Current models of Befact PoE/PoE⁺ PD modules are TPD modules (TPD-12, TPD-50, TPD-33), SPD modules (SPD-12, SPD-50), AHPD Module (AHPD-12), PDI modules (PDI-12, PDI-50).

B. IEEE 802.3af Compliant PD Module - PDI Module

PDI Modules (PDI-12, PDI-50) are designed to survive in critical environments, specially, in higher temperature PoE application.

So, all of application notes for Befact PD modules can be applied on PDI modules with no technical concerns and risk free.
